Category:		Estimated time:	0.00 hour
Target version:		Spent time:	1.00 hour
Description			
Dear Azid,			
Mohon bantuannya untuk membuatkan query untuk menarik data ESS coaching di:			
SQL Server : MinovaHR_ESS_CNAF_Production2			
Table: core_wf_run_main			
bizflow_id: MD_COACH			
dt_create: like%2020%			
semua Reg Id yang ada di core_wf_run_main, digunakan untuk mendapatkan data coaching di table core_wf_run_biz_data.			
Sampai di situ saja, agar dapat mengeluarkan semua data Coaching 2022 dengan status sedang berjalan ESS (belum finish) dan sudah finish.			
Terimakasih.			
Salam,			
ika

dear mba ika berikut ini querynya :

```
select distinct * from core_wf_run_main main
left join core_wf_run_biz_data data on main.reg_id = data.reg_id
where main.bizflow_id = 'MD_COACH' and LEFT = '2022'
```

makasih
