#### Description

Dear Mang azid,

Mang azid tolongg, terjadi eror pada report reecruitment..

The screenshot shows the 'Applicant Selection Report BMS' interface. On the left is a sidebar menu with categories like 'My Workplace', 'Business Intelligence', and 'Human Resource'. Under 'Human Resource', 'Recruitment Management' is expanded, showing options like 'Recruitment Report' and 'Applicant Selection Report BMS'. The main content area has a 'Report Parameter' section with fields for Applicant ID (From: 90000419, To: 90000419), Period (From: 01/01/2022, To: 24/03/2022), Applicant Action, and Position. Below this is a 'Report Result' section displaying a red error message: 'Server Error in '/' Application.' followed by a 'Runtime Error' description. The error details mention a custom error configuration issue. At the bottom, there is a code block showing a comment: '<!-- Web.Config Configuration File -->'. A 'View Report' button is visible in the top right of the report area.
