Description

dear tim developer mohon support nya apakah ini penyebabnya jika error intersect with attendance master data pada saat menginput overtime dari menu HR.

remote.minovais.com:61121

The screenshot shows the ROHTO HRIS system interface. On the left is a sidebar menu with categories like 'My Workplace', 'Master Data', 'Human Resource', and 'Time Management'. The 'Time Management' section is expanded, showing 'Time Data' as the selected option. The main content area displays 'Employee Overview - 00000058 - Lucia Roos Meila'. Below this, there's a 'Master Data' section with a table listing 'Overtime', 'Absence Quota', 'Absence', and 'Absence Half Day'. To the right of this table is a form for 'Add - Overtime - 00000058 - Lucia Roos Meila' with fields for 'Start Date', 'End Date', 'Day Before Flag', 'Duration', 'Create By', and 'Create Date'. A red error message banner at the top of the main content area reads: '000005 - Error You cannot save because intersect with attendance master data'.

- File panduan menginput overtime.mp4 added

- Status changed from New to Closed

update :

error intersect data attendance itu terjadi karena ada ketidak sesuaian data yang mau diinput dengan attendance yang ada.

untuk menginput overtime itu persyaratan nya adalah:

- cek pada workschedule nya
- cek pada attendance nya (overtime itu diisi starttime dan endtime di dalam endtime attendance).
- lalu sesuaikan jam kerja dengan overtime yang mau diinput.
