Update:

tampilan nya terjadi karena ada tabel DEFBIZDATA yang kurang atau hilang.

1. update ulang DEFBIZDATA dulu
2. cek DEFBIZPROC nya dengan nama OvertimeNew, lalu deploy ulang ke client.
3. cek SDATATABLEFIELD dengan tabel PDSWFMDOVERTIME, deploy ulang ke client.
4. cek ulang DEFBIZDATA karena starttime dan endtime jangan di readonly

selanjutnya mau testing pengajuan nya karena saat di coba tidak bisa finish.

update:

- cek tabel DICSTRUCT karena ada 1 tabel yang belum didaftarkan yaitu PHRPA0016.
setelah itu baru bisa finish dan tersimpan di workflow.
