The screenshot shows the Microsoft SQL Server Management Studio interface. The 'Object Explorer' on the left shows the database structure for 'MinovaES_BankKalteng_Dev'. The 'Query Editor' on the right displays a SQL query and its results. The query is a SELECT statement filtering for 'RegID = 34890' and 'FieldID = HeaderSequence'. The results table shows 10 rows of data, with the 'Sequence' column highlighted in red. The 'Sequence' values are 1 through 10, and the 'Value' column contains the number 4 for each row.
