

Phase 2 - Bug #1396

[HR] - Performance Report per Unit

07/21/2022 10:38 AM - ericsson ericsson

Status:	QA Test	Start date:	07/21/2022
Priority:	Normal	Due date:	
Assignee:	ericsson ericsson	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	1.00 hour

Description

Dear, Azid.

Mohon bantuannya untuk menampilkan report berikut ini :

4. Performance Report per Unit (MenuID=PMR02) (ReportID=9000020)

Karena padaa saat ini tampilan report masih error seperti pada gambar.

Port : <http://remote.minovais.com:31118/>

DB : remote.minovais.com, 1438\MSSQLSERVER2012

The screenshot shows the BWS Performance Report per Unit application interface. The left sidebar contains a navigation menu with categories like My Workplace, Business Intelligence, Human Resource, and General. The main content area is titled 'Performance Report per Unit' and includes a 'Report Parameter' section with fields for Start Date (01/01/2022), End Date (21/07/2022), Organization, and Appraisal Type (01 - Goal Setting). Below this is a 'Report Result' section displaying a red error message: 'Server Error in '/' Application. Runtime Error'. The error details state: 'Description: An application error occurred on the server. The current custom error settings for this application prevent the details of the application error from being viewed remotely (for security reasons). It could, however, be viewed by browsers running on the local server machine. Details: To enable the details of this specific error message to be viewable on remote machines, please create a <customErrors> tag within a 'web.config' configuration file located in the root directory of the current web application. This <customErrors> tag should then have its 'mode' attribute set to 'Off'. Below the error message is a code block showing the configuration file structure: <!-- Web.Config Configuration File --> <configuration> <system.web>

History
