Dear Mang Wanto,
minta tolong API nya di update yaa untuk validasi2 clock in/out ini.

- Jangan boleh clock in 2 kali
- gak bisa clock out kl belum clock in
- untuk clock in/out harus dgn attendance type yg sama.

Sepertinya case yg muncul skrg dimana dia sudah clock in tp data hilang setelah melakukan clock out. kemungkinan dikarenakan employee melakukan clock in/out dgn attendance yg berbeda

Tks ya
