Description

Dear team dev

berikut beberapa kasus HR_PMS Final Setting :

- 1. KPI tidak bisa di calculate.
- 2. Tidak bisa add qualification.
- 3. Tidak bisa saving.

The screenshot displays the Minova HRIS interface. On the left, the 'HRIS Menu' sidebar lists various functions, with 'KPI Catalog' currently selected. The main workspace is titled 'Performance Summary' and contains a 'Calculate' button. Below this, there are two data tables. The first table, intended for performance metrics, has columns for 'Type', 'Weight', 'Final Score', and 'Calculated Score', but it is currently empty, showing 'No Data Display'. The second table, likely for calculated scores, has columns for 'Calculated Score', 'Index Score', 'Adjusted Score', and 'Adjusted Index', also showing 'No Data Display'. At the bottom right of the interface, there are two buttons: 'Back to Grid' and 'Save', with the 'Save' button highlighted by a red rectangle.
