dicoba untuk menjalankan proses statistic calculation dengan contoh employeeID 00000058

The screenshot shows the Rohto HRIS application interface. On the left is a sidebar menu with 'HRIS Menu' and 'Human Resource' categories. The main content area is titled 'Statistic Calculation' and contains a form with fields for 'RunCalculation:' (set to 'OM Recap'), 'Period Month:' (set to '2'), 'Year:' (set to '2021'), and two 'Employee ID' fields. Below the form is a 'Result' section. A red error message is displayed: '000005 - Error Error Specified cast is not valid.' On the right, the Chrome DevTools console is open, showing a JavaScript error at line 2416, column 22: 'this.request.send(this.params)'. The error message in the console is 'Uncaught TypeError: Cannot read property 'send' of null'.
