Description

Dear mang Wanto,

Mohon bantuan nya untuk memberbaiki case ini yaitu saat mengimport data assignment saat di simulasi muncul error

The screenshot shows the BIA HR system interface. At the top, there's a navigation bar with 'My Workplace', 'Human Resource', and 'System Administration'. Below this, a red error banner reads: '!UPLOADMD - Upload Total Succes: 0 Total Error: 1'. The main content area is titled 'Import Master Data - Personal Administration'. It features a 'Master Data' dropdown set to 'Assignment', a 'File' input field with a 'Browse' button, and radio buttons for 'Simulate' (selected) and 'Execute'. There's also a 'Force Save Data' checkbox. An 'Import' button is on the right. Below this, a 'Result' section shows a summary: 'Success: 0', 'Error: 1', and 'Warning: 0'. An 'Export' button is also present. At the bottom, a table lists the import results:

Request ...	Status	Log ID	Notes
22100025	Error		One or more errors occurred.
