Description

dear tim developer, mohon support nya untuk perbaikan pada report training implementation dimana kalau filter training event tidak diisi, maka report tidak keluar data nya.

The screenshot shows the ROHTO HRIS interface. On the left is a navigation menu with categories like 'My Workplace', 'My Report', 'Request', and 'Travel Management'. The main area is titled 'Training Implementation' and contains a 'Report Parameter' form. The form has the following fields: 'Company ID' (ROHTO), 'Training Event' (empty dropdown, highlighted with a red box), 'Period From' (01/01/2017), 'Period To' (01/04/2018), and 'Training Status' (Executed). A 'View Report' button is located at the bottom right of the form. Below the form is a 'Report Result' section showing a pagination bar with '1 of 1' and an 'Export' button.
