Description

Dear Tim Developer mohon support nya untuk perbaikan pada menu Mass File Import dimana menu tersebut saat memilih filter sertifikat, tidak bisa melakukan import data. berikut contoh file nya yang akan di upload.

The screenshot shows the HRIS application interface with the 'Mass File Import' menu selected. The interface displays a 'File Type' dropdown set to 'Sertifikat' and a 'File' input field. Below this, there are radio buttons for 'Simulate' and 'Execute', and a checkbox for 'Force Save Data'. The 'Result' section shows a 'Summary' and a 'Success' status. The DevTools console shows several error messages, including a deprecation warning for XMLHttpRequest, a 404 error for a resource, and an invalid 'X-Frame-Options' header encountered when loading a resource.

History

#1 - 02/18/2021 04:11 PM - Muhammad Bintar

- File SIM.zip added

- Status changed from New to Developing

syarat untuk upload mass file import

1. format file harus zip
2. nama file ga boleh ada spasi
3. isi file dalam zip harus langsung isinya bukan ada folder lagi di dalam zip

#2 - 02/18/2021 04:11 PM - Muhammad Bintar

- Status changed from Developing to Closed
