Description			
dear tim developer, berdasarkan referensi ini http://remote.minovais.com:3000/redmine/issues/2098 untuk update lock nya sudah bisa, namun ternyata karena kolom validthrough nya tidak terupdate alias masih 99991231, username tersebut masih bisa login walau employee tersebut sudah resign. 20200098 20200478 20230064 20230106 20230122 remote.minovais.com:31141 database sql server remote.minovais.com, 1438

dear masbin , udah bisa di test ya , untuk issue ini menggunakan trigger after update pada movement type di phrpa0002 berikut ini triggernya

```
USE MinovaHR_Indomobil_Dev;  
GO
```

```
CREATE TRIGGER [dbo].UpdateValidtrought  
ON [dbo].[hr_md_emp_md0002]  
AFTER UPDATE  
AS  
BEGIN  
-- Cek jika kolom test1 diperbarui ke '01'  
IF UPDATE  
BEGIN  
-- Perbarui kolom start_date di TabelB berdasarkan start_date di TabelA  
UPDATE B  
SET B.valid_through = A.[start_date]  
FROM base_sys_user AS B  
INNER JOIN [hr_md_emp_md0002] AS A ON B.emp_id = A.emp_id  
INNER JOIN inserted AS I ON A.emp_id = I.emp_id  
INNER JOIN deleted AS D ON A.emp_id = D.emp_id  
WHERE I.movement_type = '80' AND (D.movement_type <> '80' OR D.movement_type IS NULL);  
END;  
END;
```
