### Description

Dear Azid,

Mohon bantuannya untuk mengecek field alternate karena kita diisi lebih duluan maka cost tunjangan perjalanan dinasnya mengikuti yang diisi di field alternate bukan requestor nya.

The screenshot shows the 'Header' section of a travel request form. The 'Alternate' field is highlighted with a red box and contains the value '00000001'. Other fields include Requester Name (Anisa Syifa Amalia), Subject (t), Description (t), Start Date (30/05/2023), End Date (30/05/2023), Travel Status (Plan), Travel Type (Perjalanan Dinas (I)), Travel Category (>= 200 KM - < 575), Destination Area (Non Jakarta), and Notes (t).

The screenshot shows the 'Cost' table section of the travel request form. The table has columns for Start Date, End Date, Cost Type, Currency, Currency Rate (USD), Number, and Rate. The 'Rate' column is highlighted with a red box and contains the value '1,000,000.00'. The table contains one row of data.

	Start Date	End Date	Cost Type	Currency	Currency Rate (USD)	Number	Rate
1	30/05/2023	30/05/2023	Tunjangan Perjalanan Dinas (IDR)	Rp		1	1,000,000.00

TableName: PDSWFTRAVELHEADER

BizFlowID: MD\_TravelNew

- Assignee changed from M Azid Wahyudi to Johannes Christian Kurni

dear jo , udah bisa di test ya

issue ini terjadi karena code pada saat field Alternate milih employeeid lain ,, requeaternya berubah menjadi employeeid lain tersebut jadi codenya yang mengandung MinovaUtil.WORKFLOW.getEmpld(); di rubah menjadi Ext.ComponentQuery.query('[name=RequesterID]')[0].value

package :

bizproc

- method

- afterrender

- before submit

makasih
