Description

Dear Developer,

Mohon bantuannya untuk memperbaiki masalah yang terjadi, yaitu :

1. Saat edit data dan disimpan, keterangan "Save Successfull" tetapi data tidak berubah

Berikut saya lampirkan video dan foto hasil testing

The screenshot shows the 'Sales Inquiry' form in the MINOVAIS system. The 'Document Header' section includes fields for Document Number (00000065), Document Type (Sales Inquiry), Document Date (05/06/2023), and Document Status (Submit). The 'Document Detail' section shows a table with columns for Cost, Notes, Amount, and Currency. The first row shows '01-Shipping' with a note 'Testing' and an amount of '500,000.00' in IDR. A red box highlights the amount, and a red note 'Sebelum diedit' is next to it.

The screenshot shows the 'Sales Inquiry' form after an edit attempt. A green message 'Save successful!' is displayed at the top. The 'Document Header' section is the same as in the previous screenshot. The 'Document Detail' section shows the same table, but the amount for the first row is still '500,000.00' in IDR. A red box highlights the amount, and a red note 'Tetap 500.000, padahal sudah diedit menjadi 400.000' is next to it.

1. Cek table Fisik (PTRSALESOTHCOST)

2. Cek di SDATATABLEFIELD, untuk table PTRSALESOTHCOST pastikan memiliki PK.

Samakan PK antara table fisik dengan yang ada di SDATATABLEFIELD

Jika tidak ada, maka harus tentukan mana yang akan jadi PK. Setting di table fisik dan set IsPrimaryKey (1) di SDATATABLEFIELD

SHOW/HIDE FIELD SELAIN SETTING DI SDATATABLEFIELD

1. Ketahui nama table dari tab tersebut

contoh tab "Other Cost" yaitu table PTRSALESOTHCOST

2. Setting di table PCMBSDOCFIELD, tentukan field mana yang mau di show/hidden dengan mengeset GridView (1/0)
