

PT BIA - Bug #2245

[Budget Report] Budget result draft monthly

06/14/2023 03:22 PM - Johannes Christian Kurni

Status:	Closed	Start date:	06/14/2023
Priority:	High	Due date:	06/16/2023
Assignee:	Johanes Christian Kurni	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	1.00 hour

Description

Dear Shofwan,

Mohon bantuannya untuk mengecek report ini.

The screenshot shows the BIA HRIS interface. The left sidebar contains a navigation menu with 'Budgeting' selected. The main content area displays the 'Budget Result Draft Monthly' report. The 'Report Parameter' section includes the following fields:

Cost Center:	<input type="text"/>
Comparison Year:	2021
Budget Year:	2022
Scenario Desc:	Scenario 2022 10%

The 'Report Result' section displays a red error message: 'Server Error in '/' Application.' Below this, it shows a 'Runtime Error' with a description: 'An application error occurred on the server. The current custom error settings for this application prevent the details of the application error from being viewed remotely (for security reasons). It could, however, be viewed by browsers running on the local server machine.' A 'View Report' button is located at the bottom right of the report parameter section.
