Description

Dear Shofwan,

Mohon bantuannya untuk mengecek report ini.

The screenshot shows the BIA HRIS interface. The left sidebar contains a menu with options like Employee Administration, Time Management, Benefit Administration, Travel Management, Payroll Administration, Payroll Accounting, Recruitment Management, Budgeting, Budget Calculation, Man Power Plan, Budget Report, Budget Result Draft Monthly, Budget Result Draft Quarterly, Budget Result Draft Yearly, Budget & Actual Comparison, MPP, Compensation, and Performance Management. The main content area displays the 'Budget Result Draft Quarterly' report. The 'Report Parameter' section shows fields for Cost Center, Comparison Year (2021), Budget Year (2022), and Scenario Desc (Scenario 2022 10%). A 'View Report' button is visible. Below the parameters, a red error message states 'Server Error in '/' Application.' followed by a 'Runtime Error' section. The error description mentions that an application error occurred on the server and that custom error settings prevent details from being viewed remotely. The details section provides instructions on how to enable error details by creating a <customErrors> tag in the web.config file.
