Dear Bintar,

action copy itu khan tujuannya sama spt action Add, yaitu membuat data baru namun untuk mempermudahnya yaitu dgn menggunakan action copy supaya tidak perlu mengisi satu persatu field yg ada namun cukup merubah field yg diinginkan seperti misalnya start date/end date. Maka secara fungsi saat kita action copy maka aplikasi membaca seperti data baru dimana untuk absence type annual leave misalnya itu original kuota 12 dan remaining kuota 12 sesuai parameter di annual leave tsb. Sehingga yg akan muncul data kuotanya dianggap masih full yaitu 12.

Tolong dijelaskan saya konsep nya seperti itu karena menggunakan action copy.

Kalau action edit, bisa di cek maka remaining kuota akan sama spt yg tercantum saat masih tampil dalam bentuk grid

Demikian, terima kasih
