Description

Dear
Shofwan,

Mohon bantuannya untuk mengecek error pada report ini. tapi kalau dilihat report-report yang lain juga error nya sama.

Server Error in '/' Application.

Runtime Error

Description:

An application error occurred on the server. The current custom error settings for this application prevent the details of the application error from being viewed remotely (for security reasons). It could, however, be viewed by browsers running on the local server machine.

Details:

To enable the details of this specific error message to be viewable on remote machines, please create a <customErrors> tag within a "web.config" configuration file located in the root directory of the current web application. This <customErrors> tag should then have its "mode" attribute set to "Off".

```
<!-- Web.Config Configuration File -->

<configuration>
  <system.web>
    <customErrors mode="Off"/>
  </system.web>
</configuration>
```

Notes:

The current error page you are seeing can be replaced by a custom error page by modifying the "defaultRedirect" attribute of the application's <customErrors> configuration tag to point to a custom error page URL.

```
<!-- Web.Config Configuration File -->

<configuration>
  <system.web>
    <customErrors mode="RemoteOnly" defaultRedirect="mycustompage.htm"/>
  </system.web>
```

tunggu info dari mas afa nya. ternyata untuk database nya sudah benar diambil dari production, tetapi RDL nya bukan mengambil dari database, tapi dari drive C nya di pc mereka.

jadi menunggu dari mas afa nya kirim ulang RDL nya.

udah kita terima dari mas aufa di aceh, ini RDL nya sudah di deploy ke server 66.

nama RDL nya CRPTYBANKTRANSFER

tapi di kita error. coba di cek ya...

soalnya kalau di production aceh di sana, lancar2 aja
