### Description

Dear tim developer mohon support nya untuk menghilangkan validasi error intersect with master data pada saat menghapus atau menambahkan data cuti pada master data HR - Time Data karena membuat user menjadi bingung penyebabnya karena apa dan juga karena ini orang HR maka seharusnya tidak perlu ada validasi tersebut.

The screenshot shows the HINO HR system interface. At the top, there is a navigation menu with 'My Workplace', 'Business Intelligence', 'Human Resource', and 'Time Management'. A red error message banner reads: '000005 - Error You cannot save because intersect with absence master data'. Below this, the 'Employee Overview' for Achmad Masroh Affan (ID: 00000522) is displayed, including details like Company ID (PT HINO Finance Indonesia), Employee Office (KC Kelapa Gading), and Position (ADM Staff). The 'Master Data' section for 'Copy - Attendance - 00000522 - Achmad Masroh Affan' is visible, showing fields for Overtime, Absence Quota, Absence, Attendance, Work Schedule, Personal Work Schedule, and Attendance Detail, each with a status indicator (checkmark or minus sign). The 'Attendance' row is highlighted. To the right, there are fields for 'Notes', 'Create By' (FINGER), 'Create Date' (17/08/2023 01:05:05), 'Change By' (FINGER), and 'Change Date' (17/08/2023 01:05:05).
