Target version:		Spent time:	0.00 hour

Description

Sebelumnya Fitur export ada semua file type (pdf, excel, word, csv dll.) sesuai dengan setting reporting service, berikut update supaya khusus menu ess payslip, export nya hanya pdf saja

UPDATE FILE PACKAGE

C:\Webserver\Easy\UI\app\controller\report\custom.rdlreport.js

UPDATE SCRIPT

```
setTimeout(function () {  
    var menuid = MinovaUtil.GetMenuID();  
    if (menuid == "MYEPAYSLIP") {  
        pnlReport.unmask();  
        checkIframeContent(pnlReport);  
    }  
    else {  
        pnlReport.unmask();  
    }  
}, 3000);
```

setelah unmask di function view report, kasih function **checkIframeContent** (pnlReport), dan ubah time jadi 3000

```
// Function to check iframe content and modify export options  
function checkIframeContent(pnlReport) {  
    var iframe = pnlReport.el.down('iframe').dom;  
  
    if (iframe) {  
        var iframeDocument = iframe.contentDocument || iframe.contentWindow.document;  
  
        if (iframeDocument) {  
            var exportSelect = iframeDocument.getElementById('ReportViewer1_ctl01_ctl05_ctl00')  
        }  
    }  
};
```

```
        if (exportSelect) {
            var options = exportSelect.options;
            for (var i = options.length - 1; i >= 0; i--) {
                var value = options[i].value;
                // Remove all options except "Select a format" and "PDF"
                if (value !== 'Select a format' && value !== 'PDF') {
                    exportSelect.remove(i);
                }
            }
        }

// Ensure that dropdown functionality remains
// Re-trigger change event to ensure it updates properly
var event = document.createEvent('HTMLEvents');
event.initEvent('change', true, false);
exportSelect.dispatchEvent(event);
    } else {
        // Retry if exportSelect is not found
        setTimeout(function() {
            checkIframeContent(pnlReport); // Retry
        }, 500); // Retry every 500ms
    }
} else {
    // Retry if iframeDocument is not yet available
    setTimeout(function() {
        checkIframeContent(pnlReport); // Retry
    }, 500); // Retry every 500ms
}
} else {
    // Retry if iframe is not yet available
    setTimeout(function() {
        checkIframeContent(pnlReport); // Retry
    }, 500); // Retry every 500ms
}
}
```
