Description			
Dear Shofwan,			
Di menu Delivery Order dan Goods Receipt (PTRMATERIALITEM), ingin agar field Nama Barang, Material Type, dan Unit autoload di row-row berikutnya setelah user memilih Nama Barang di row pertama.			
(Jadi Nama Barang di row-row berikutnya otomatis sama dengan Nama Barang yang dipilih di row pertama. Dan field Material Type dan Unit juga ikut autoload.)			
Terimakasih.

supaya tidak kejadian bikin error engine save seperti kejadian di doc approve sales order,

saran saya untuk semua task yg terkait control dan ui logistic KJL di assign ke Mb Yomma, karena edit nya berbarengan di E:\APP\KJL\UI\app\controller\logistic\documentlogistic.js
