Description			
Dear Shofwan, ada request dari Tulisan agar Invoicenya bisa otomatis terkirim by e-mail ke Customer.			
Membaca alamat e-mailnya dari field E-Mail yang ada di Customer Master Data, atau kalau misalnya dia pakai Guest berarti membaca dari alamat e-mail yang diisikan di field Guest Email.			
Jadi nanti kalau Order Submitted akan otomatis mengirim attachment Invoice by e-mail ke e-mail Customer.			
Terimakasih.

- Notes Developer

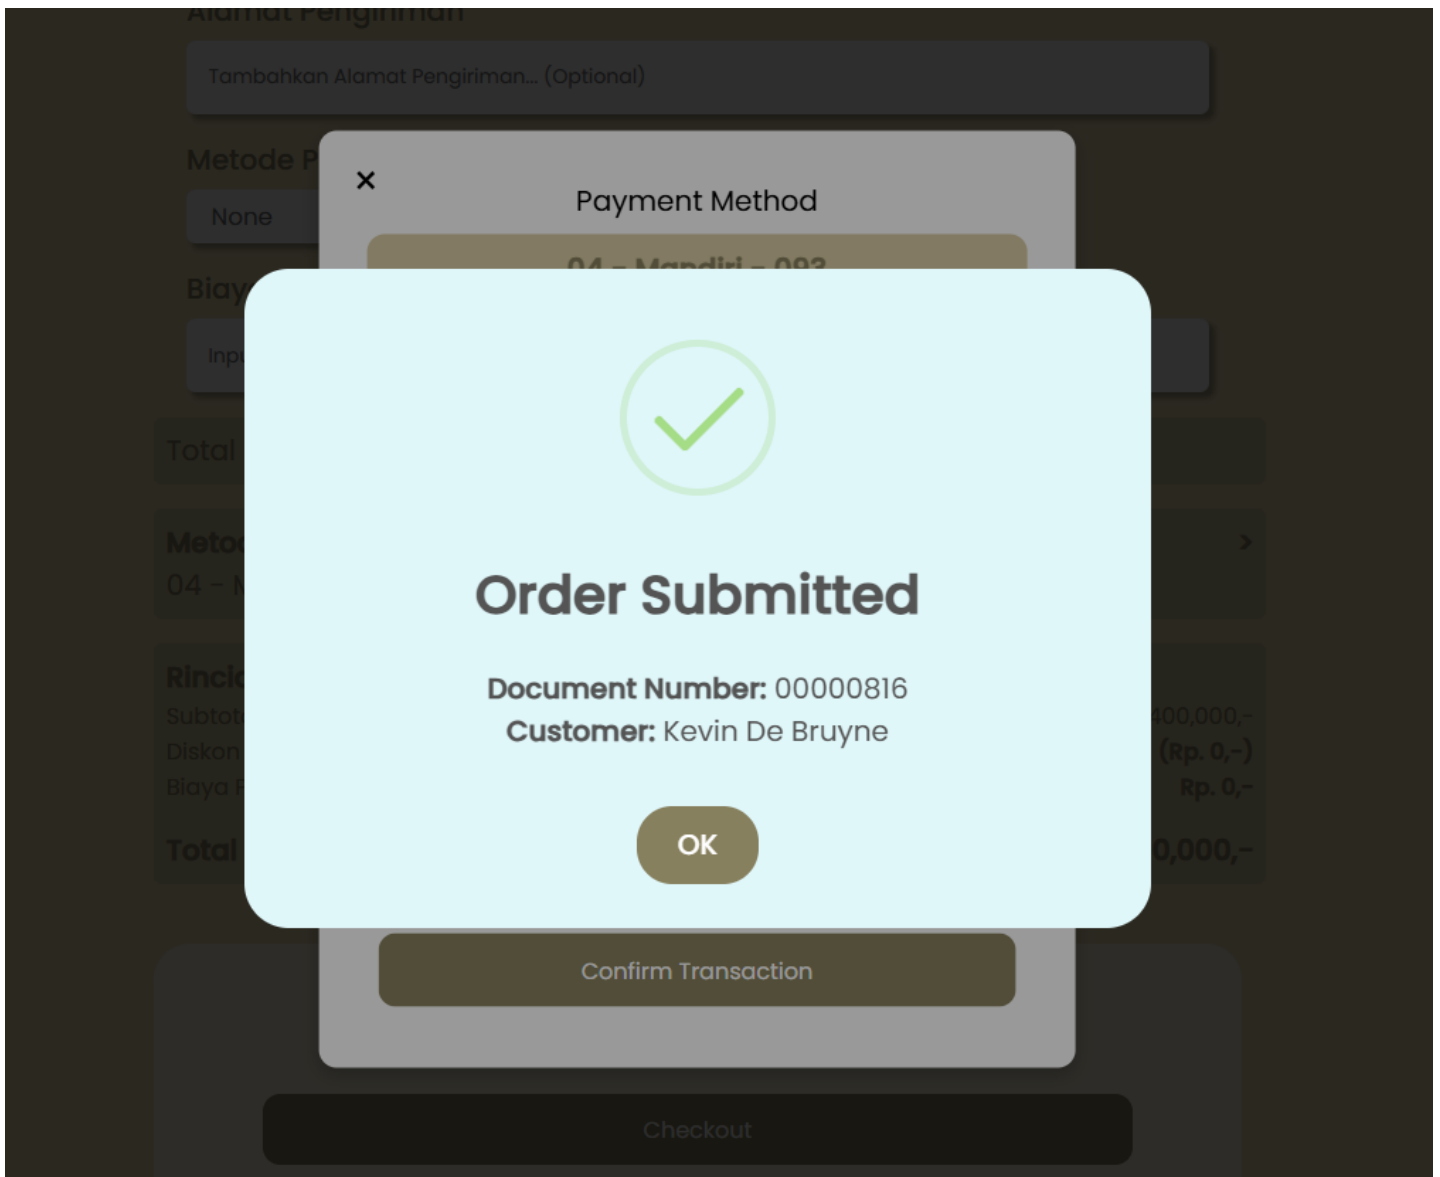

ada perubahan settingan di pc vps karena ada update otomatis chrome per tanggal 14 Mei 2025 yang membuat email tidak berhasil terkirim sejak update chrome

Solusi nya Setting

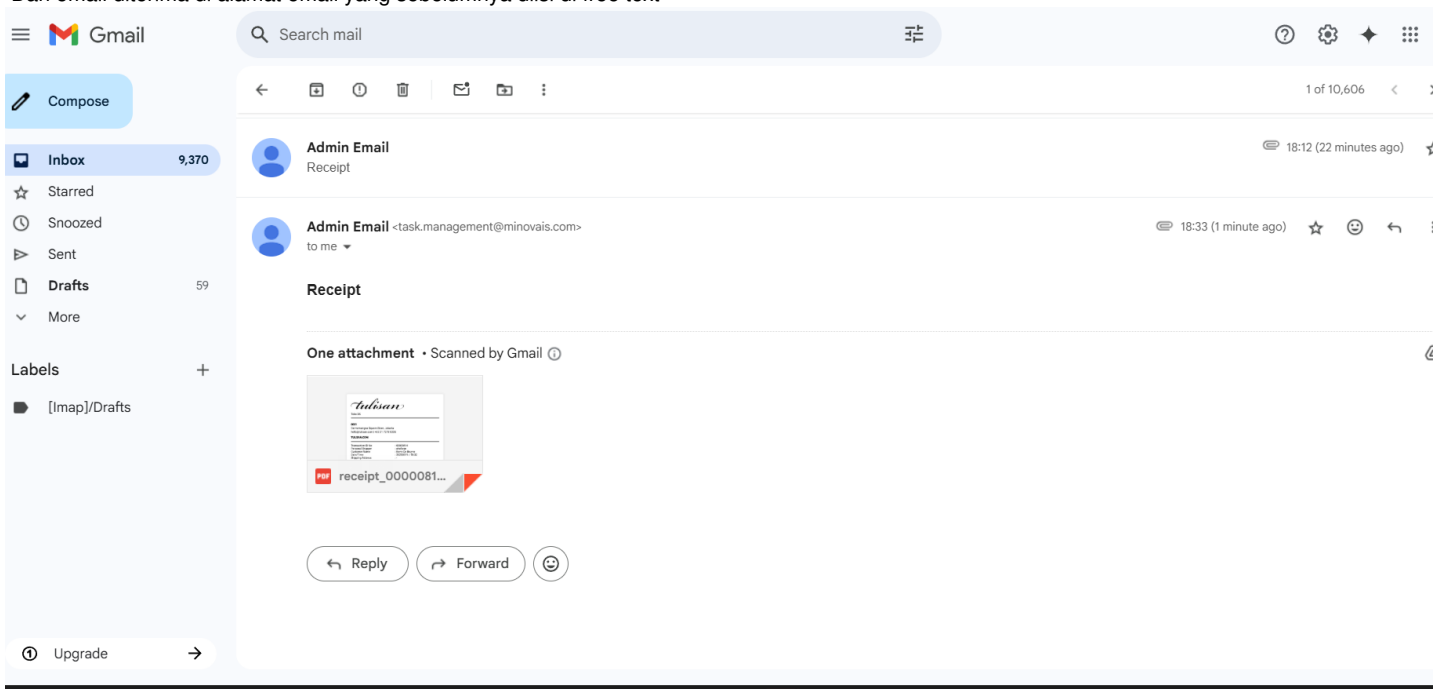

IIS > Application Pool > MinovaES_Tulisan_ECommerceDev > Advanced Setting > Identity > Set LoadUserProfile to true

Dear Haykal, untuk kirim email sekarang juga sudah bisa untuk guest ya, dengan mengisi alamat email yang ingin dikirimkan.

Ini saya sudah test membuat dokumen dengan customer ID guest

Dan email diterima di alamat email yang sebelumnya diisi di free text

Silahkan di testing, jangan lupa refresh page checkout nya terlebih dahulu untuk menghindari bug
