Description Dear team developer, Mohon bantuannya, saya upload Template Hiring PHRPA0015 dan Template Assignment PHRPA0002 tetapi saat mau generate user tidak muncul employeeID nya. Yg muncul hanya ada data sebelumnya (data dummy). EmployeeID yg ada di Master Data (yg baru di upload): 00000585 00000586 00000587 00000588 00000589 00000590 00000591 00000592 00000593 00000594 00000595 00000596 00000597 00000598 00000599 CompanyID: 1000 Jadi yg muncul hanya 3 EmployeeID data lama (data dummy) bukan yg baru di upload. Terima kasih. Port DB: 103.153.60.89 database: MinovaES_Ekno https://hris-ekno.minovais.com/Account/Login
