Description

Dear, Saswanto Tampan.

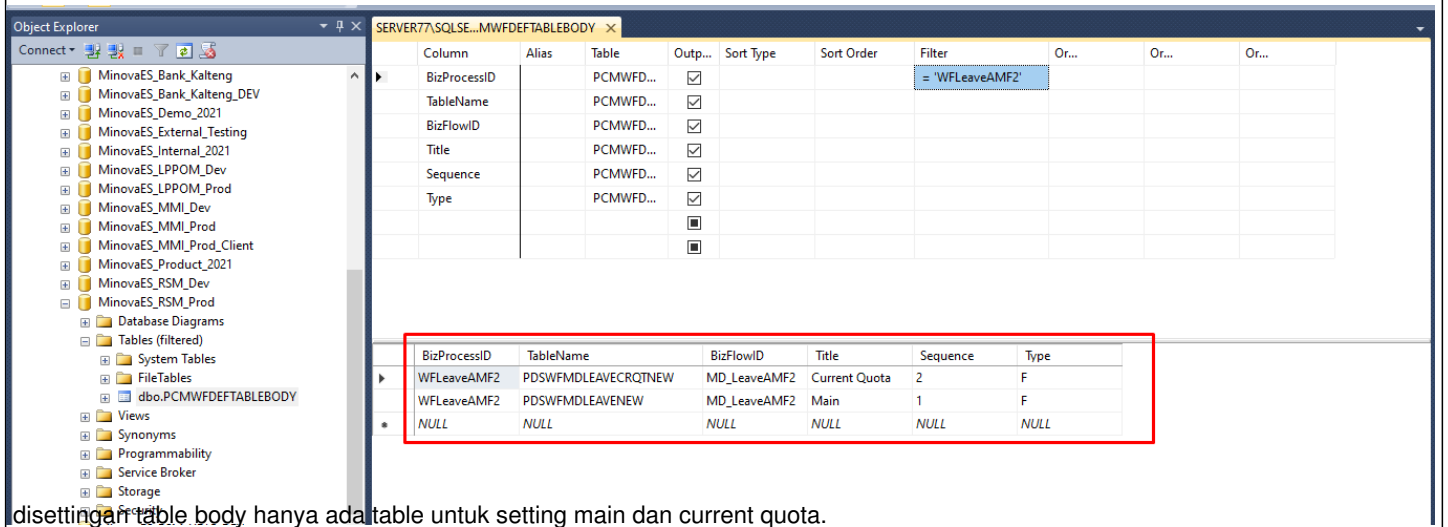

Mohon bantuannya untuk port RSM yang 61122 tidak bisa create leave after update ke UI baru.

The screenshot shows the MINOVAIS web application interface for creating a leave request. The page title is 'Leave' and the breadcrumb is 'HOME > LEAVE'. The user is logged in as Muhammad Hasbi. The form is divided into two main sections: 'Header' and 'Body'. The 'Header' section contains the following fields: Employee ID (empty), Requester ID (00000095), Requester Name (Muhammad Hasbi), Subject (empty), and Description (empty). The 'Body' section contains the following fields: Leave Type (dropdown menu), Start Date (calendar icon), End Date (calendar icon), Total Leave Taken (input field), and Notes (text area). A red box highlights the 'Header' section, and another red box highlights the 'Subject' and 'Description' fields. The 'Subject' and 'Description' fields are empty, indicating they are mandatory but not auto-loaded.

field subject dan description pada header body mandatory namun blm autoload

field subject dan description pada header di rsm cloud sudah autoload.

disetting table body hanya ada table untuk setting main dan current quota.
