Description

Dear tim developer, mohon support nya untuk perbaikan pada service finger HINO dimana pada saat service berjalan, terdapat 2 employee yang tidak insert data dari database staging(MinovaAbsen) ke dalam sistem database.
contoh nya employeeid 00000455

employee tersebut sudah ada data nya pada staging namun tidak ke transfer ke database.

Dear Wanto,

case ini apa berbeda kondisinya sesuai diskusi kmrn?

Kalau kmrn khan infonya ada kolom yg kosong shg tidak ke tarik ke PHRPA0019 nya.
Kolom synced itu yg mengisi dr tim IT mereka kah?

Tks

Update:

Setelah di cek pada source code TM Finger HINO dan memappingkan ke database HINO, pada tabel SVCTM terdapat query yang perlu di ubah.

dirubah nilai nya dari -40 ke -60. artinya mengambil data attendance 60 hari sebelum nya today.

lalu ada tabel svcregular yang dirubah cycle nya dari 1 menjadi 30(artinya 30 menit sekali melakukan cycle)

SVCType	StartDate	StartTime	Cycle	CycleValue	ExecutedExter...	DLLExecuted	ClassExecuted	MethodExecut...
BLOCK_LEAVE_SVC	20110101	0700	m	1	1	NULL	NULL	NULL
EMP_OWL_RECAP	20110101	1100	m	5	1	NULL	NULL	NULL
TM_FINGERPRINT	20110101	1710	m	30	1	NULL	NULL	NULL
WF_MAIL_APPROVAL	20110101	0800	d	1	1	NULL	NULL	NULL
WF_SUBMIT	20110101	1100	s	1	1	NULL	NULL	NULL
NULL	NULL	NULL	NULL	NULL	NULL	NULL	NULL	NULL

setelah di tes kembali, hasil nya bisa dapat untuk mengambil data attendance.

terdapat issue lain dari service finger ini:

- pada database staging sudah synced = 1 namun data tidak terinsert ke phrpa0019
- kestabilan service finger pada sistem karena walau status nya running.

Menunggu update dari tim developer
