1. Awalnya tidak bisa up web UI karena error ssl protocol, penyebab nya karena di client LPPOM sudah memakai port HTTPS maka jika di taruh ke server 77 akan mengakibatkan ui tidak dapat diakses.
cara fixing problem nya adalah dengan membuat ip binding https terlebih dahulu (port 64119) lalu binding http (port 61119).

2. Report error sudah diperbaiki dengan cara update pada webconfig di UI lalu cek pada line
<add key="SvcUrlReport" value="http://192.168.3.77/Reports_SQLSERVER2012/" />
ubah menjadi
<add key="SvcUrlReport" value="http://192.168.3.77/ReportServer_SQLSERVER2012/" />
