Description

Dear Mbak Yomma,

Mohon bantuannya untuk melakukan perbaikan pada menu Material Master Data dikarenakan pada saat add dimenu tersebut tidak bisa melakukan saving. Muncul keterangan sbb seperti pada gambar :

The screenshot shows the MINOVAIS application interface. On the left is a sidebar menu with categories like My Workplace, Master Data, Financial Accounting, Human Resource, Logistic & Service, Business Intelligence, Menu Development, and System Administration. The main area displays the 'Material Master Data' page. A red error message box is visible, stating: '000005 - Error Error Failed to convert parameter value from a String to a Int32. Query: INSERT INTO PMDMAT0001 (ExternalID, MaterialID, Description, MAP, MaterialType, ProductGroup, UnitMeasurement, Photo, Weight, UnitWeight, Volume, UnitVolume, Length, Wide, Height, ProjectTemplate, UnitDimension, PackagingType, DeliveryType, StorageType, BinType, C) VALUES (@ExternalID, @MaterialID, @Description, @MAP, @MaterialType, @ProductGroup, @UnitMeasurement, @Photo, @Weight, @UnitWeight, @Volume, @UnitVolume, @Length, @Wide, @Height, @ProjectTemplate, @UnitDimension, @PackagingT,)'. Below the error message is the 'Add New Material Detail' form, which includes fields for Material ID, Description, External ID, Material Type, and Product Group. The form also has tabs for Detail, Sales Info, Purchase Info, Stock Info, Bill Of Material, and Photo. The 'Detail' tab is currently selected, showing fields for External ID, Material ID, Description (with 'Marketing Kit' entered), MAP (with '0' entered), and Material Type (with 'Pack' selected).

Atas hal tersebut mohon kiranya bantuan untuk case tersebut, terima kasih.
