Target version:		Spent time:	0.00 hour

Description

Dear, Developer.

Mohon dibuatkan parameter untuk TaskID= apv_partner dengan detail sebagai berikut :

taskID : apv_partner

BizFlowID : MD_PMS_review

get data posisi di table : PCMWFRUNBIZDATA

FieldID : POSITIONINASSIGN=Engagement Partner

port : 61122

server 77 || 2014

db : RSMPROD

The screenshot shows the MINOVAIS WorkFlow Process Viewer interface. The sidebar on the left contains navigation links for various system modules. The main content area is titled 'WorkFlow Process Viewer' and includes a 'WorkFlow Selection' section with a dropdown menu set to 'PMS Review'. Below this is the 'Workflow viewer' section, which displays a flowchart. The flowchart starts with 'Mail Notif to Partner' (mail_to_partner), leading to 'Approval Partner' (apv_partner), which is highlighted with a red box. From 'Approval Partner', the flow branches into 'Process to PHRPA0047' (proc_data_PHRPA0047) and 'Mail Revise Creator' (revise_mail_creator). The 'Process to PHRPA0047' step leads to 'Proses Data PA47' (proc_PHRPA0047_done), which then leads to 'Process to PHRPA0048'. The 'Mail Revise Creator' step leads to 'Mail Revise' (mailrevise_success), which then leads to 'Revise Creator'.
