Description

Dear mang wanto,

Mohon bantuannya untuk memperbaiki generate absence quota.
Pada saat mau klik execute muncul pop-up "Ext.Ajax.request Failure"

Terima kasih.

The screenshot shows the PT ARITA HR system interface. On the left is a navigation menu with categories like 'My Workplace', 'Master Data', and 'Human Resource'. The main area displays the 'Generate Absence Quota' form. A modal dialog box is open, showing an error message: 'remote.minovais.com:31131 says Ext.Ajax.request Failure' with an 'OK' button. Below the form, there is a 'Result' table with columns: Start Date, End Date, Absence Quota Type, Employee, Full Na..., Start Deducti..., End Deducti..., Original Quota, Remaining Quota, and Notes. The table currently shows 'No Data Display'. A 'Loading...' spinner is visible at the bottom of the page.

Mang,
kayaknya ini ada kesalahan fitur deh. Yang di raise issue nya di redmine adalah menu generate Absence Quota, sedangkan yg td loe info soal menu generate Personal WS yg msh ada bugs yg biasa digunakan untuk Shift.
Jadi sptnya tetep deh harus di benerin untuk menu generate absence quotanya karena memang itu dipergunakan
